

SKYLINE RESIDENCE

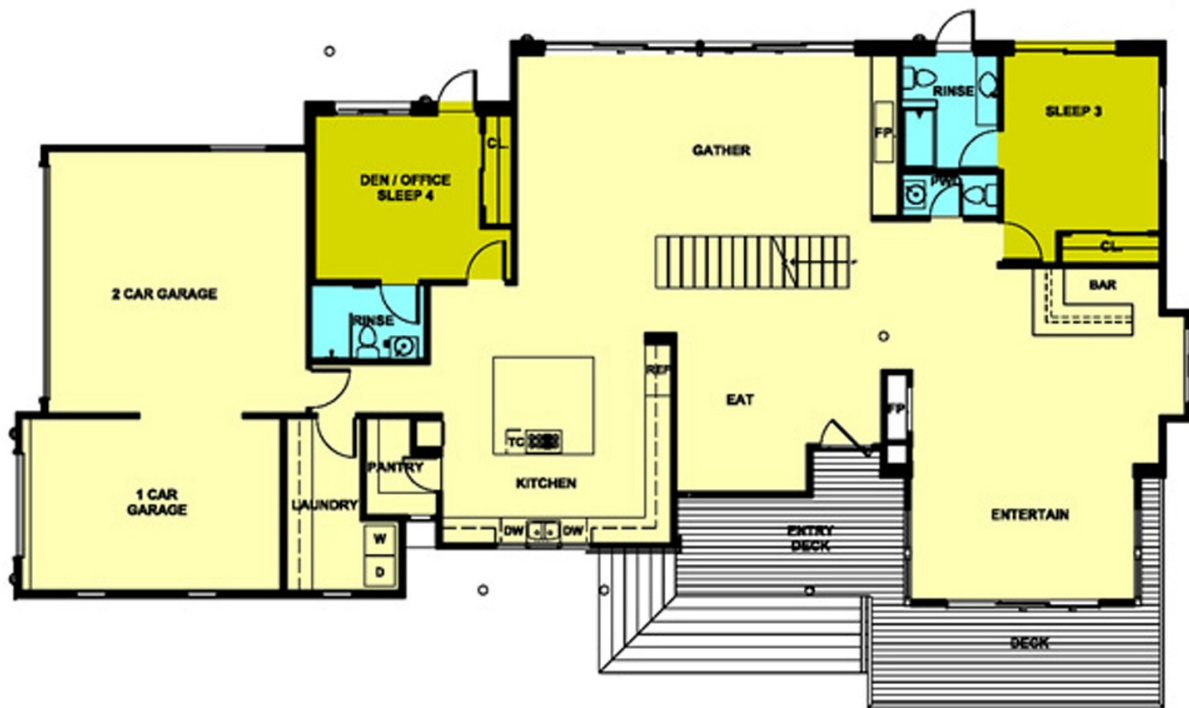

Elegance and Function

The Mid-Century Modern architecture is reminiscent of the mid-20th Century movement of combining organic design with functional comfort and chic style. The Skyline Residence emphasizes indoor-outdoor flow by bringing the outdoors in and the indoors out. The spacious design includes rooms for gatherings, celebrating and moments of reflection while enjoying the breathtaking ocean view.

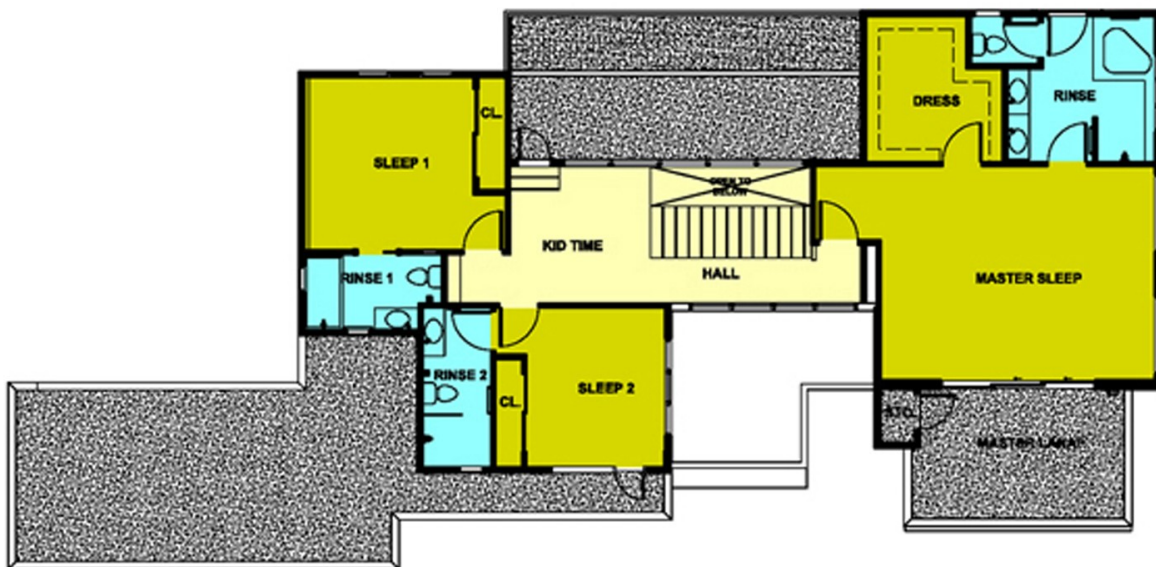

The Skyline Residence includes: Energy-efficient features that are designed to save money and energy; and WaterWise water-saving features that reduce usage and help save money. Outside you will find WaterSmart landscaping and space to add a Guest House/Second Dwelling Unit with an Ocean View.
